*What is needed to enhance well-being and competitiveness across the US and Mexico*

# Mapping Shared Prosperity

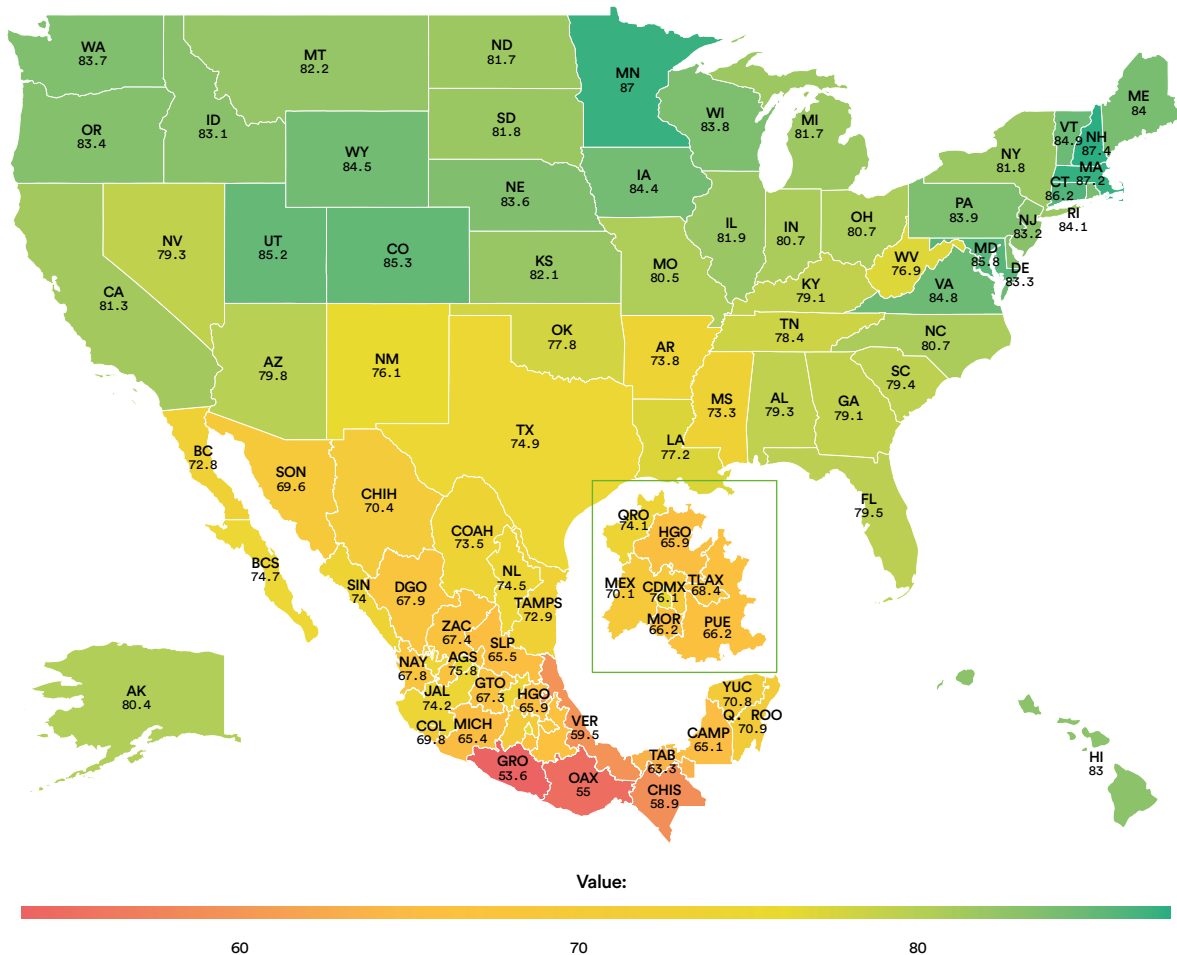

*What is needed to enhance well-being and competitiveness across the US and Mexico*

The **interconnections between the United States and Mexico** extend beyond their commercial interactions, suggesting a deeper **socio-economic confluence** shaped by agreements like NAFTA and its successor, the USMCA

This integration is **notably evident in the southern United States and northern Mexico**, where pivotal aspects of societal well-being, encompassing healthcare and education, thrive. This observation serves to depict a multifaceted picture of collective prosperity and regional unity.

## Social Progress Index

### Social Progress Index USA - Mexico

**México, ¿cómo vamos?**, in collaboration with the **Social Progress Imperative** and **INCAE**, presents the Shared Prosperity Map —a vivid depiction of the interconnected well-being of states across the

US and Mexico. Drawing on the comprehensive data of the Social Progress Index<sup>1</sup> for 2022, this map offers an insightful subnational perspective on quality of life beyond economic indicators.

### Foundations of wellbeing SPI USA-Mexico

Made by México, ¿cómo vamos? with public information

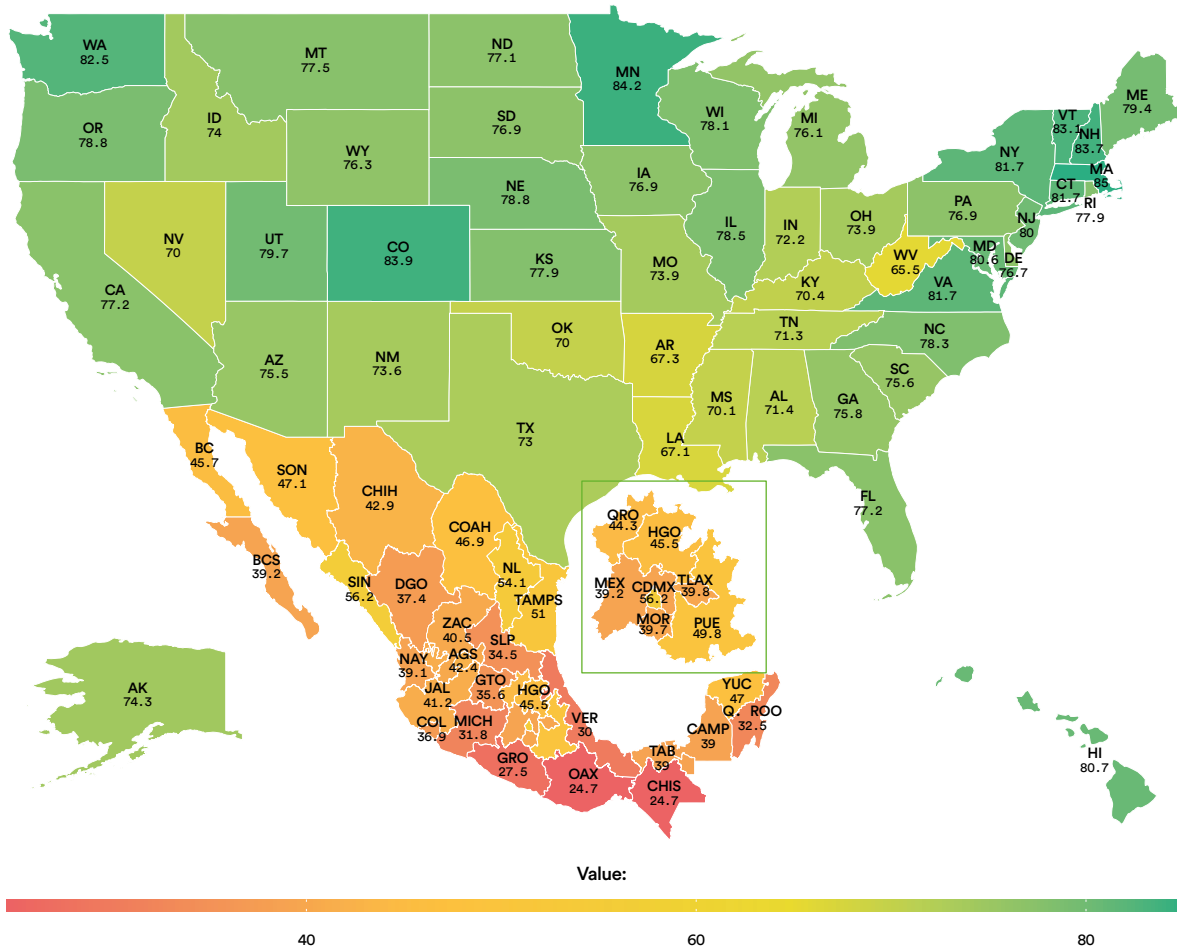

In the realm of advanced education, Mexican states show potential for growth to align more closely with their US counterparts, underscoring an opportunity for progress. Interestingly, the gap narrows sig-

nificantly when we consider basic education and information and communication technology sectors, highlighting how integral these areas are to mutual benefits derived from US-Mexico integration.

<sup>1</sup> The index takes values from 0 to 100, where 100 represents the highest level of social progress possible while 0 represents the lowest possible level.

Made by México, ¿cómo vamos? with public information

This parity in foundational education and digital connectivity sets a strong precedent for the future, where the digital economy stands out as a prime area for cooperative growth. Leveraging this syner-

gy promises to catalyze well-being and prosperity, illustrating how the interwoven economies of the US and Mexico are poised to flourish in the coming years.

## Challenges of the US-Mexico Well-being Map

As the Well-being Map reveals, nutrition and basic healthcare remain areas of critical challenge but also of significant opportunity across the US-Mexico region. While there is a spectrum of outcomes, the Baja Peninsula in Mexico stands out, showcasing the effectiveness of its health and nutrition strategies. These results reflect a concerted policy effort that may serve as a model for other regions.

It is evident that targeted policies can have a substantial impact, as demonstrated by the positive outcomes in the Baja California Peninsula. Learning from such successes, it is imperative to adopt and adapt these strategic measures to improve well-being throughout North America.

Another challenge is the “Health and Wellness” component that presents a diverse landscape of outcomes. This map offers a visual representation of where states on both sides of the border stand in terms of healthcare services and general well-being. A notable observation is the variability across regions, reflecting the different policy approaches and levels of investment in health infrastructure.

While some areas exhibit robust health metrics, others highlight critical needs for improvement. The data serves as a benchmark for policymakers to identify best practices and prioritize interventions that could elevate the health and wellness of the population, thereby contributing to the overall prosperity of the region.

## Health

Made by México, ¿cómo vamos? with public information

The comprehensive data reflected in the US-Mexico Well being Map underscores the undeniable importance of further integration between these neighboring nations. A collaborative approach not only fosters a more prosperous and competitive region but also enhances the quality of life for its citizens. As we consider the varied landscapes of health, education, and digital connectivity, it be-

comes clear that our shared future hinges on the deepening of these ties. By addressing disparities and building on mutual strengths, the US and Mexico can chart a course towards a dynamic and resilient partnership, one that is capable of meeting the challenges of the future and delivering benefits that resonate across borders.
